From the Court of Louis XVI of France comes the inspiration for this beautifully designed all walnut dining room grouping. With the outstanding characteristics from the workshops of this famous ruler, have been combined many desirable features required by the home furnishers of the present day, such as the folding leaves built into the table top, a full length linen drawer and a wealth of additional cupboard space in the buffet. All pieces are made of genuine walnut, richly finished to blend with the many decorative color combinations now in vogue.

Asbestos Table Pads

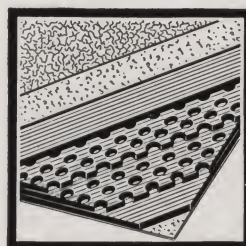

Protect your fine tables with asbestos pads made especially for you.

To be certain that hot dishes do not mar the fine finish of her dining-room table, the smart, up-to-date hostess employs a good quality pad. Your attention is particularly called to our number 975-1V and 975-2V with their air cell patented construction, and the 975-3V Suedex pad, all of which may be had in coverings to accentuate the attractiveness of open work cloths. Both the 975-1V and 975-2V air cell pads may be had with white top and green base, a combination for use on any table, an attractive brown wood grain top for oak tables, brown crush grain top for walnut tables, mahogany wood grain top for mahogany tables, and a beautiful ivory pebble top for blonde tables, all with brown duvetyn bases. Each half pad, except small dinette, is hinged in four sections and can be folded to fit into a small drawer or shelf when not in use.

French Pastel Group

For a gay and colorful bedroom distinctly smart and modern, choose from the charming pieces in this dainty French pastel group. The furniture is made in different sizes for large and small bedrooms, and the style variations of the graceful design permit selection according to individual taste. Typical French styling appears in the curved contours, and the surfaces are enriched by carving, mouldings and specially designed hardware. The pieces are finished in five modish pastel shades which will be popularized by the World's Fair this year—Sandal Wood, Cruise Beige, Fresco Pink, Surfblu and Deauville (Light Buff color). Finely constructed throughout. Notable is the careful dust-proof construction of the drawers, which work smoothly and are handsomely painted inside.

The Estrellita

From Mexico, the Land of Eternal Spring, comes the inspiration for this colorful bedroom grouping. Combining the simplicity of line for Modern interiors with warm colors and such informal decorations as "sombreros," the "Estrellita" rings a new note in the symphony of home decorations. A unique effect is achieved by using "random width" boards in the tops, ends, and fronts; sombrero hats for drawer pulls; Mexican pottery shaped feet; cut mouldings designed from motifs in the Palace of Columns at Mitla and decorated with touches of Toltec green and Aztec red. The smooth, waxed finish of "rawhide brown" brings the sunshine and romance South of the Rio Grande to those of us living North of 30° latitude. Made of abedul (Birch) throughout.

Old Colony

Heywood Wakefield

Unquestionably the reason for the immense popularity of Old Colony furniture is its comfort, combined with true lines and features of colonial and Early American designing. It preserves the quaint simple lines of good Early American furniture and sensibly adds the comfort and luxury of modern springs; thick deep spring filled cushions; properly pitched backs and many other improvements of today. "Pricilla" or "Salem" finish. When ordering, be sure and specify which is wanted.

IMPROVED ORTHO-FLEX Correct Posture Health Unit

ORTHO straight. FLEX flexible. Because the Pressure Control Fingers on the top and bottom of every ORTHO-FLEX coil pick up the windings, the coils automatically adjust themselves to provide the exact degree of support necessary to keep the spine in perfect alignment, and provide complete relaxation regardless of weight or size. See how the Pressure Control Fingers engage the coil windings to form a closed top coil when depressed. This prevents the lower windings from punching the mattress padding from the inside, and eliminates "spring feel."

Hidden Values Are Important

**NATIONALLY
ADVERTISED**

The hidden part of a mattress is the heart of it, and determines both comfort and lasting qualities. To get full value, follow the recommendations of government departments, hotels, hospitals and consumer organizations:—get a spring unit that is flexible, that has no knots in it, no cloth nor twine to wear out. Get good quality cotton felt, and be sure the mattress is constructed along proven lines. Spring Air, to a greater extent than any other mattress gives a perfect combination of all these factors, and that is the reason why Spring Air is growing so rapidly, in popular demand.

EVERY SPRING-AIR MATTRESS CONTAINS A GENUINE KARR SPRING CONSTRUCTION

✓ Karr units are built with the highest grade triple tested spring wire.

✓ In every step of production there is rigid inspection—insuring uniform comfort and durability.

✓ The Karr positive "hinge-action" holds the spirals in permanent position but permit full conformability to any body weight, or shape.

✓ The design of Karr springs eliminates all dead and inactive wire. There are no knotted loops that add weight to the unit and reduce the comfort.

MODEL 60 MATTRESS. Retail Price, \$45.00

The 2 layer Model 60 Spring Air mattress has the cotton padding only on one side—next to the body—and the cotton is in a separate flexible pad so that it can be turned, aired and freshened daily.

The pad has 12 individual compartments which are separated from each other by cloth partitions. The cotton cannot shift or move, and more cotton is placed in the center compartments where the greatest weights of the body lie.

The second layer—the one directly under the pad—is the Karr spring construction, which is placed here instead of being built inside the mattress, as in the conventional style. It is guaranteed for 15 years.

The two sections are covered in a specially woven, striped ticking which is unusually strong but soft and pliable.

This cover has a tan background with choice of blue, green or dark tan striping.

THE "INSIDE STORY"

- ★ The **ONLY** electric shaver by a manufacturer qualified by nearly 50 years successful experience in BOTH the hair clipping and electric appliance industries.
- ★ The **ONLY** electric shaver with a powerful, brush-type, series-wound, self-starting Universal motor.
- ★ The **ONLY** electric shaver with a lightning-fast, single cutter that oscillates in an arc inside a comfortable, smooth, shaving head.
- ★ The **ONLY** electric shaver with a shaving head shaped to comfortably fit every contour of the face, and screened to pick up the beard the way it grows.
- ★ The **ONLY** electric shaver with a shaving head screened not only to shave the short beard, but also to pick up curly hairs that often cling close to the neck.

The established LEADER in the electric shaver field

Up and down the land hundreds of thousands of men have found in Sunbeam Shavemaster the answer to quick, close, comfort-shaving! It gives them the kind of shaves they have been looking for in an electric shaver. It makes friends quickly—AND IT KEEPS THEM. It has come to stay!

All GOOD things are usually SIMPLE. Shavemaster has proved itself to be the simple, logical answer to electric shaving—both in principle and in use. There is no experimenting with heads to find one that may fit your beard or suit your chin. And in the midst of a shave there is no changing heads to clip the short stubble beard and then to pick up longer, curly hairs. There are no long weeks of "patient practice" and "skin conditioning." No bothersome adjustments to make it run fast enough with sufficient power.

With Shavemaster one comfortable shaving head, shaped to fit every contour of the face and screened to pick up the beard the way it grows, shaves all kinds of beards on all kinds of faces. And it is POWERED by a real, brush-type, series-wound Universal motor that doesn't swoon when a man-sized beard comes along.

Shavemaster has a patented principle that is all its own—exclusive features different from all other electric shavers. Shavemaster is TOPS with the men of America because it gets down to business and does a job RIGHT NOW—not next week or the week after.

POLAROID DESK LAMP

More than a lamp—it is virtually an instrument of seeing. Polaroid illumination, light free glare. The Polaroid desk lamp provides a wide distribution of light over the working surface. The intensity is exceptionally high, but you are not conscious of it. There is no harshness, no sense of brightness because nothing but useful or "seeing" lights pass through Polaroid. "Glare is gone entirely."

Polaroid stops the undesirable light vibrations right at the source and permits the useful ones to pass through. Therefore, Polaroid has made possible a new kind of light for reading and working. With it you see color as color really is. The full contrast of black ink on white paper is preserved. Vision is rapid, precise, easy. All glare is gone and with it the most common cause of eye strain and fatigue. Smart, modern, as revolutionary in design as it is in performance. Body of lamp made of heat resisting bakelite. Finish walnut brown. Retail price, \$16.50.

IMPORTANT . . .

PLEASE use order blanks and follow directions. By using the order blanks which accompany this Catalog and following the directions given thereon, the possibilities of mistakes and misunderstandings will be to a great extent eliminated.

1. *Do not cut Catalog.* Merely giving the Number and designating the article is sufficient information.
2. Order by *Number* as well as *Name*, giving *Wood* and *Finish*.
3. When ordering upholstered furniture give *Grade* and *Name of Upholstery* and *Color*. On fibre furniture give *Finish* as well as *Grade* and *Name of Upholstery* and *Color*.
4. In ordering upholstered furniture it is well to remember that we can furnish coverings to harmonize with any color scheme desired. When in doubt, we suggest that a request be made for samples both for material and color. Where no color is specified, merely the grade, we will in such cases use our judgment.
5. Be sure to specify clearly if a certain finish of walnut or mahogany is wanted—if in doubt, request sample of finish.
6. In ordering Beds, Springs or Mattresses always give *Size* and specify if for wood or metal bed, also bow or straight end.
7. If box spring ordered is for a bed not listed in our current catalog, advise the size, number and manufacturer's name which should appear on the back of the bed. If unable to give this information, send the inside measurements. Specify if bed has a specially low Foot End.
